

# GINO GABRIEL CIANCIA

Full-Stack & AI Developer · Node.js · React · Astro · LLM Pipelines

Buenos Aires, Argentina · +54 11 4023-0671 · [ginociancia10@gmail.com](mailto:ginociancia10@gmail.com) · [github.com/GinoGC01](https://github.com/GinoGC01)

Available for remote work · UTC-3

## SUMMARY

**Computer Science** student (UNGS) and **Full-Stack Developer** specialized in backend, AI integrations, and process automation. Experienced building multi-agent LLM pipelines, RAG systems, REST APIs, and **complete end-to-end applications**.

## PROJECTS & EXPERIENCE

### CanchaLibre | Founder & Full-Stack Developer

2026 – PRESENT

- Founded and developed end-to-end a self-owned SaaS platform for managing tournaments, fixtures, teams, and statistics for amateur leagues — from architecture to deployment.
- Stack: Node.js / TypeScript on the backend, PostgreSQL as relational database, React on the frontend with a mobile-first design built for league managers and players.
- Live in production: [canchalibre.pro](https://canchalibre.pro) (web) · [app.canchalibre.pro](https://app.canchalibre.pro) (app)

### Leads-Pro | AI & Backend Developer

2026 – PRESENT

- Full development of an automated prospecting system combining a multi-agent LLM pipeline, headless web scraping, and technical lead qualification for B2B sales teams.
- Designed and implemented a Qdrant vector database + RLHF feedback loops for continuous improvement; integrated OpenAI API with strict JSON generation and webhook delivery.
- Built data extraction pipelines with OCR and computer vision models. Microservices architecture.
- Repository: [GitHub](https://github.com)

## TECH STACK

BACKEND	NODE.JS, EXPRESS, TYPESCRIPT, REST APIS, MICROSERVICES
FRONTEND	React, Astro, Tailwind CSS
DATABASES	MongoDB, MySQL, Supabase, Qdrant (vector)
AI / LLM	OpenAI API, RAG systems, multi-agent pipelines, OCR, computer vision
TOOLS	Git, GitHub, Docker (basic), Postman, n8n
INTEGRATIONS	Mercado Pago SDK, Google Sheets API, Telegram API, Webhooks
LANGUAGES	JavaScript, TypeScript

## EDUCATION

**B.Sc. in Information Systems — UNGS**, Buenos Aires (in progress)

**Back End Development and APIs — freeCodeCamp** (2024)

## ADDITIONAL

4th place — UNGS Programming Tournament 2025.
